

**Our Mission:** The mission of **Go Beyond the Limit** is to help oppressed (downtrodden) women who are survivors of abuse (domestic, drugs, and/or sex) realize that they have the power within themselves to accomplish infinitely more than they might ask or think through coaching and training.

The coaching includes modules that will help heal the hearts of the survivors, and the training includes modules, which will train them how to become self-sufficient entrepreneurs.

**Our Vision:** The vision of **Go Beyond the Limit** is to provide career opportunities for survivors of abuse, and to help them rebuild their lives and self-esteem.
